A. POLICY STATEMENT

The EBRCSA system design envisions the migration to P25 Phase 2 in the first several years of the system operations. In order to handle the intended loading of the system, subscriber units must be P25 Phase 2 compliant. It is a policy of the EBRCSA to require all member agencies to purchase P25 Phase 2 capable radios after January 1, 2010 in order to insure the majority of system users can migrate to P25 Phase 2 when the system is upgraded.
